Collective Agreement for the Professional Transport of Goods by Road and Mobile Crane Hire

Between:

1. Transport en Logistiek Nederland, established in Zoetermeer
Vereniging Verticaal Transport, established in Culemborg

hereinafter jointly referred to as the one party,

2. CNV Vakmensen, established in Utrecht
FNV, established in Utrecht
De Unie, established in Culemborg

hereinafter jointly referred to as the other party,

the following Collective Agreement has been concluded for the period from 1 January 2024 to 1 January 2026

Article 1

Nature of the agreement

In the absence of explicit statement to the contrary, the provisions of this Collective Agreement are of a standard nature.

Article 2

Scope

1. This agreement covers:
 - a. all employers and employees of companies established in the Netherlands that carry out licensed transport under the Road Transport Act (Wwg), as last published on 20 December 2016 (Bulletin of Acts and Decrees 518), and/or that, for a fee, wholly or partially carry out transport other than for persons, by road or on roads other than those open to public traffic.
 - b. employers and employees in the crane hire sector, which is taken to mean all companies operating in the Netherlands whose business involves hiring out mobile cranes.
2. a. The agreement does not apply to companies which:
 - are required to operate their own Collective Agreement; or
 - operate their own sectoral Collective Agreement; or
 - have their own defined terms of employment.

This is subject to the following conditions:

- The level of the aforementioned regulations must be at least equivalent to the level of the Collective Agreement for the Professional Transport of Goods by Road and Mobile Crane Hire, and;
 - The main activity of the company is something other than professional road haulage, logistical services or mobile crane rental.
2. b. The main activity of the company is something other than professional road haulage, logistical services or mobile crane hire if, as a rule, no more than 20% of the turnover is generated by the aforementioned activities.

The decisive factor here is the legal entity for which a commercial road haulage licence has been applied for or granted, or within which the mobile crane hire takes place.

2. c. Also excluded are companies which, in the main, carry out construction work as measured by the wage bill of the company and which also operate mobile cranes.

Article 3

3. a. On-call worker: any person employed by the employer on an incidental basis for fewer than 5 consecutive days.
3. b. Part-time employee: every employee with whom it has been agreed that only part of the normal number of working hours, as referred to in Article 26, paragraph 1a, are to be worked.

2. If a probationary period is stipulated at the time of the employee's appointment, the employee concerned must be informed of this in writing before he takes up his duties, on penalty of nullity. The probationary period must not exceed two months. When concluding an employment contract for less than two years, the probationary period must not exceed one month. No probationary period may be stipulated if the employment contract has been entered into for six months or less.
3. An employment contract entered into for an indefinite period will end by operation of law on reaching the pensionable age as referred to in the General Old Age Pensions Act (AOW).

Following the end of the contract, it must be possible to enter into one or more new fixed-term employment contracts, pursuant to Article 7:668a (12) of the Dutch Civil Code, or a permanent employment contract. This Collective Agreement applies to these new employment contract or contracts. The new employment contracts are separate from the previous contracts entered into before the pensionable age as referred to in the General Old Age Pensions Act.

Article 5

The provisions of and pursuant to the Medical Examinations Act must be complied with. This provision does not apply to administrative and managerial staff. The obligation to undergo a pre-employment medical examination will cease to apply if the employee holds a medical certificate showing that he has recently undergone a similar medical examination. The date of the examination certificate may not be more than one year before the start of employment.
- 2.b. The employer will bear the costs of the driving licence medical unless the law provides otherwise. With regard to the payment of wages, reference is made to Article 65 1I.
3. The employer must provide the employee with a copy of the Collective Agreement and amendments to it free of charge, and the employee must confirm receipt.

Article 7

Employee's obligations

- 1.a. The employee is obliged to perform the work agreed in the employment contract

concluded with him.

- 1.b. At the employer's request, the employee is obliged to perform all work that may be performed insofar as this may reasonably be required of the employee.
- 1.c. The systematic restacking of complete truck loads of stacked pallets by the driver is not considered part of the work that can reasonably be required of the employee unless otherwise agreed in the individual employment contract.
- 2.a. The employee is obliged to maintain confidentiality concerning everything he learns about the employer's business, the confidential nature of which he knows or should reasonably have known. This confidentiality obligation does not apply to disclosures required by law, regulation or another rule.
- 2.b. However, with due observance of the above, the employee is authorised to send and explain any wishes and objections to the workers organisation he is affiliated with.
3. The employee must present himself for any medical examinations that the employer may reasonably deem necessary in connection with the performance of the work (unless there are compelling medical objections). "Medical examinations" also includes examinations within the framework of occupational health and safety. The employee may consult with his doctor about this in advance. The employee must follow any measures recommended on the basis of the medical opinion resulting from the examination. If an employee objects to the results of an examination, he can request a re-examination.
- 4.a. Regarding items issued on loan by the employer to the employee such as vehicles, equipment and/or tools, the employee is obliged:
 - to ensure to the best of his ability that these are in good condition at the time of receipt
 - to acknowledge their receipt in a manner to be specified by the employer, if required by or on behalf of the employer
 - to use and store them with due care
 - to report immediately to his immediate superior any loss of or damage to them
 - to return them when they are no longer required for his work or when requested to do so by or on behalf of the employer.

The provisions under the second indent of this paragraph also apply to monies entrusted to the employee by the employer or transferred by third parties. The employee is obliged to check that the amounts transferred to him correspond to the amount stated or owed by the employer or third parties.

- 4.b. An employee who, whilst performing the contract, causes damages to the employer or to a third party to which the employer is obliged to pay compensation for damages is not liable to the employer for this unless the damage is the result of an intentional act or deliberate recklessness on his part. The circumstances of the case, including the nature of the agreement in question, may dictate otherwise than as provided in the previous sentence. The compensation will not exceed the cost of repair or replacement.
- 4.c. Within one month of becoming aware of the event, the employer must notify the employee in writing of its intention to claim compensation. The employer will determine the amount of compensation as soon as possible, though no later than within one year

of becoming aware of the event.

- 4.d. It is not possible to deduct the compensation from the employee's wages unless the employer and the employee agree on the obligation to pay compensation.
- 5.a. During the shift, the employee must not consume any alcoholic beverages or substances that may impair his ability to work or drive. The employee must commence the shift without being under the influence of the aforementioned substances.
- 5.b. Where appropriate, the employee will discuss with his doctor the implications of using medicines that influence his ability to drive and inform the employer of the doctor's conclusions.
- 6.a. The employee is obliged to seek prior permission from the employer for being allowed to perform or extend work for third parties outside the times when work is to be performed at the employer. Work for third parties is also understood to mean:

 - the design, management, performance and supervision of work other than for the employer
- 6.b. The employer may refuse a request under paragraph 6a only if the refusal can be justified by objective reasons.
7. Employees who represent the company to the outside world must maintain a presentable appearance at work.
8. By 1 May of each year at the latest, the employee must provide the employer with an overview of their refresher training hours (code 95).

Chapter IV Special employee categories

Article 8

Part-time employees

1. The provisions of the Collective Agreement apply to part-time employees, subject to the following paragraphs of this article.
- 2.a. Where the Collective Agreement provisions lend themselves to this, they will be applied pro rata to part-time employees. Irrespective of the work pattern, at least the statutory minimum hourly wage must be paid for each working hour.
- 2.b. Overtime is defined as any hours, not falling on Saturday or Sunday, that exceed the 40-hour working week. For mobile personnel in double manned vehicles, overtime is defined as hours not falling on Saturday after 07:00 or Sunday that exceed the working time of 40 hours per week.
- 3.a. The holiday entitlements and holiday allowance are calculated pro rata to the number of working hours completed, but will not exceed the maximum applicable to those concerned as referred to in Articles 67a, 68 and 69 respectively.
- 3.b. To calculate the holiday entitlements and holiday allowance mentioned under 3a., the minimum number of hours agreed upon applies as a basis for the calculation.
- 3.c. The holiday entitlement and holiday allowance in a given year are based on the total number of hours worked, with a minimum of the number of hours agreed upon in the preceding calendar year.
4. If, in a period of 52 weeks prior to the first day of incapacity for work, a part-time employee has worked more hours than agreed in the contract, these additional hours must be included in the wages in the case of occupational disability with due observance of the provisions of Article 16.

Article 9

Temporary agency workers

1. When hiring workers from temporary employment agencies or payroll companies established in the Netherlands or abroad, only NEN 4400/1 or 4400/2 certified temporary employment agencies or payroll companies registered with the Labour Standards Foundation (SNA) may be used.
At the written request of a workers organisation, the employer is obliged to indicate which temporary employment agency(ies) or payroll company(ies) will be used.
2. The employer is obliged to stipulate in agreements with temporary employment agencies or payroll companies established in the Netherlands or abroad that the workers posted to the employer are granted the basic terms of employment as those of employees working in the same or equivalent positions for the employer.

Article 9a

Hired-in workers

- 1 Under the Posting of Workers Directive, firms established abroad which temporarily post workers to the employer are obliged to grant those workers the basic terms of employment granted to employees in the same or similar jobs for the employer. If there is no universally binding Collective Agreement, the statutory minimum provisions apply.
- 2 The employer is obliged to stipulate in the contract with the company established abroad that the workers made available to the employer are granted the basic terms of employment. If there is no universally binding Collective Agreement, the statutory minimum provisions apply.
3. The employer is obliged to inform the workers referred to in paragraphs 1 and 2 of this Article of the basic terms of employment applicable to them.
4. Paragraphs 1, 2 and 3 of this Article are not applicable if workers are hired from companies established in the Netherlands which fall directly within the scope of this Collective Agreement. This is because they are subject to the full Collective Agreement.
5. For secondments lasting longer than 12 months, Article 2a, paragraphs 4, 5 and 6 of the Dutch Collective Agreements (Declaration of Universally Binding and Non-Binding Status Act) (Wet AVV) apply.

Article 10

On-call workers

1. In principle, all articles of this Collective Agreement apply to on-call workers, with the exception of:

Article 4
Article 6(2)
Article 13
Article 14
Article 26b and c
Article 30
Article 31
Article 36
Articles 64 to 69
2. The calculation of the daily and hourly wage for the on-call worker should be based on the job rate, plus an 8% holiday allowance.
3. The on-call worker acquires statutory holidays in accordance with Section 7:634 of the Dutch Civil Code for the hours worked.
4. On-call workers are remunerated on an hourly basis.
5. Overtime is defined as hours worked in excess of the average daily working hours of 8 hours.
6. Contrary to Article 6, paragraph 3, the employer must provide the on-call worker with a copy of the Collective Agreement on request.

Article 11

Vocational training route (BBL) students

1. Contrary to the provisions of Article 67a Paragraphs 2 and 3 on the holiday scheme,

the following applies to students on a vocational training route (BBL):

- 1.a. The holiday year runs from August 16 to August 15 of the following year.
- 1.b. In the year of commencement and termination of employment, the duration of the holiday is calculated in proportion to the part of the year elapsed, whereby parts of days less than half are rounded down and parts of days more than half are rounded up.

Article 26a

Wage calculation

- 1.a. The job rates apply for 160 working hours per four-week period and 173.92 working hours a month.
- 1.b. The provisions under a. do not affect the fact that payment to the employee of at least 40 hours per week is guaranteed.
- 2.a. All working hours are paid out after deduction of the break times according to the scale in Annex III and the uninterrupted rest time, with a minimum of the rest times prescribed in EC Regulation 561/2006 (see Annex III).
A maximum of 11 consecutive hours of rest can be recorded for boat and train hours in a 24-hour period, taking into account the break time scale under Annex III.
- 2.b. Hours of service must be recorded by the employee on a timesheet to be provided by the employer. Records must also be kept of the hours spent resting, taking breaks and making corrections.
- 2.c. The timesheet must contain the following information as a minimum:
 - the date
 - the shift hours and the daily totals thereof
 - the rest period
 - the breaks
 - corrections
 - the name and signature of the driver
- 2.d. The employee is given a copy of the timesheet signed for approval after the employer has checked it.
- 2.e. The employee must notify the employer in writing of any objections within three months of receiving the timesheet referred to in 2.d. If the employee does not exercise this right, the timesheet will serve as proof from that moment on.
- 2.f. The employer must keep the completed timesheet for at least one year after the date it was completed.
- 2.g. The corresponding tachograph discs must be submitted to check the timesheets.
- 2.h. When using electronic time registration systems, the employer and employee are exempt from the obligations referred to under 2b to 2g. After each journey, the employee must be given an uncorrected printout of the data referred to in 2c. If the employee makes a one-off request to this effect, the employer is also obliged to provide the employee, once per payment period, electronically or otherwise, with a clean printout from the on-board computer showing the data per the information referred to in paragraph 2c.
- 3.a. The employer may standardise the duration of the work based on socially and economically justifiable practical experience and base the wage calculations on this. However, the employer must first obtain the consent of the workers and employers' organisations after prior consultation with the works council or employee representative body.
- 3.b. The provisions under 3.a. apply in full if the hours of service in the company are determined using electronic time registration systems.

- 3.c. If the circumstances underlying a standards regulation change, the regulation must be reassessed and adapted accordingly.
- 3.d. A standardisation provision does not relieve the employee of the obligation to complete and submit the timesheet.
- 3.e. In all cases, the regulation of standards will be laid down in writing and reported for registration to the secretariat of the Collective Agreement parties, PO Box 3008, 2700 KS Zoetermeer, within two weeks of the date.
- 4.a. Standardisation may be applied to activities such as driving, loading, unloading and waiting time, in the event of double manning, on the understanding that the total remuneration for all hours of work performed will amount to between 85% and 100%. There is double manning for international journeys if a trip is made by at least 2 drivers with equivalent duties, both in terms of job content and time allocation.
- 4.b. To use the above scheme, the companies must report their existing remuneration policy for double-manned trips to the Collective Agreement parties before 1 May 2006. Companies that have not communicated their existing remuneration policy for double-manned trips by 1 May 2006 are not expected to apply any standardisation.
- 4.c. Companies wishing to introduce a new remuneration policy for double-manned trips after 1 May 2006 will need to agree on this with the trade unions.
As part of this, the following must be taken into account:
 - the total remuneration for all hours worked will amount to 85% after two years at the latest unless the company agrees on a higher remuneration with the trade unions
 - consultations will be held with the trade unions on phasing out the difference between the old and the new arrangement for staff already in employment. This phasing-out arrangement will lapse after 2 years
 - the old scheme will be maintained and there is no reduction for employees aged 55 or above when this Collective Agreement takes effect
 - the new arrangement must be reported to the Collective Agreement parties.

Article 26b

Control over working hours

1. Employees wishing to do so are given the opportunity to choose a maximum number of hours on a calendar year basis. This wish can be expressed only once per year and must be made known well before the start of a calendar year.
The employee can choose from a number of standard options of 3120, 2860, 2600, 2340 or 2080 hours a year.
The employer and employee decide in consultation whether an agreement can be reached on the maximum number of hours.
2. The indicated annual maximum is converted back to an average of hours per 4 weeks.
3. If the employee and employer agree on a maximum of 2340 or 2080 hours, the guaranteed wages will be adjusted from 40 hours a week to 160 hours per 4 weeks pursuant to Article 26a paragraph 1b. The other standard options of 3120, 2860 and 2600 hours can only be agreed on the employee's request.
If no hourly maximum is agreed, Article 26a paragraph 1b will remain fully in effect.

4. If the agreed maximum annual hours are exceeded by more than 5%, the employee will receive time in lieu equal to 15% of the excess.
5. The number and days of the week on which work is carried out are agreed in consultation between the employee and the employer in accordance with the provisions of Article 2 of the Flexible Work Act.
6. This article is introduced as an experiment for the duration of this Collective Agreement.

Article 26c

Sustainable employment

1. Employees aged 55 and over cannot be required to work shifts. The employer and employee will determine in mutual consultation whether this can be implemented. The employee must indicate at the beginning of each calendar year if he wishes to use this exemption.
2. Employees aged 55 and over cannot be obliged to work nights (more than 1 hour between 00:00 and 06:00). The employer and employee will determine in mutual consultation whether this can be implemented. The employee must indicate at the beginning of each calendar year if he wishes to use this exemption.
Existing agreements made with employees who previously fell under the Collective Agreement Goederenvervoer Nederland will be respected.
3. To contribute to employees' sustainable employability and give them more insight into this, the Sectoral Institute for Transport and Logistics will further promote the use of employability and career scans and a vitality programme. Employees can make use of these instruments once every 3 years.

Chapter IX Overtime

Article 27

Definitions of overtime

1. Overtime is defined as hours, not falling on Saturday or Sunday, by which the 40-hour working week is exceeded.
2. For mobile personnel in double manned vehicles, overtime is defined as hours not falling on Saturday after 07:00 or Sunday with that exceed the working time of 40 hours per week.

Article 28a

Obligation to work overtime under the age of 55

Employees are entitled to refuse overtime above an average of 50 hours per week. This average is to be viewed over a period of 4 weeks. If the employee wishes to make use of this, he must indicate this on a one-off basis no later than 4 weeks prior to the beginning of the quarter.

Article 28b

Obligation to work overtime for senior employees

Employees aged 55 and above cannot be required to work overtime. The employee must indicate at the beginning of each calendar year if he wishes to use this exception. The employer and employee will determine in mutual consultation whether this can be implemented. Existing agreements made with employees who previously fell under the Collective Agreement Goederenvervoer Nederland will be respected.

Article 29

Compensation for overtime

1. Overtime will be rounded up to half hours; overtime of less than 15 minutes will not be considered for overtime pay. When an onboard computer is used, overtime is not rounded off.
2. The provisions on overtime pay will not be applied in respect of:
 - employees who are authorised by written agreement to instruct other employees to work overtime
 - overtime resulting from a delay in transport, unless this delay was caused through no fault of the employee's and lasts longer than 15 minutes
 - overtime that has arisen through the employee's own fault or actions.
3. With due observance of Article 30, overtime will be paid at the hourly rate plus a 30% allowance.
4. Contrary to the provisions of paragraph 3, administrative and technical staff receive a 100% allowance for overtime worked on scheduled days off and 30% for hours worked on Sundays under the duty roster.

Article 30

Mandatory time-for-time scheme

1. Hours worked on Mondays to Fridays over and above 220 hours per four-week pay period must be compensated in the form of time off.
2. The employer has the right to operate, contrary to paragraph 1, a time-for-time limit of 230 hours. During the term of the Collective Agreement, a change in the time-for-time limit is only permitted once.
3. For mobile workers in double-manned vehicles, notwithstanding paragraphs 1 and 2, a time-for-time limit of 240 hours per 4 weeks applies.
4. In case of alternating transport on single and double-manned vehicles, a standard to be calculated between 220 and 240 hours and 230 and 240 hours respectively per 4 weeks applies.
- 5.a. Each hour of duty over and above the applicable time-for-time limit entitles the employee to one hour off.
- 5.b. Contrary to the provisions of paragraphs 1 and 5a, the employee or employer can consult on how time-for-time is recompensed. Employees may have themselves represented by the contracting parties on the employees' side. If time-for-time hours are paid out, this must be done at 130% of the hourly wage.
- 6.a. The compensation in time is taken within 12 weeks of the payment period in which the additional hours arose. Exceptions can only be made in special cases. The compensation in money is payable at the latest in the payment period following the payment period in which the additional hours arose.
- 6.b. The limit referred to in paragraph 6a may be exceeded to prevent the employee from facing seasonal unemployment.
7. The compensation in time will be given as much as possible in blocks of at least 3 days.
8. For each day off under this scheme:
 - for a time-for-time limit of 220 hours, 11 x the hourly wage will be recompensed
 - for a time-for-time limit of 230 hours, 11.5 x the hourly wage will be recompensed
 - for a time-for-time limit of 240 hours, 12 x the hourly wage will be recompensed subject to the simultaneous deduction of the number of hours saved by 11, 11.5 or 12 hours respectively, unless the employee requests an arrangement in which 8 hours are paid for each day off.
9. On a day on which no work is done under a duty roster, shift or working hours regulation, no time off may be granted in the context of the time-for-time scheme.
10. The employer and employee must consult in good time on the period in which the hours saved are to be taken.
11. For each payment period, the employer will include with or on the payslip a statement of the total number of hours saved, on simultaneous deduction of the hours taken in the preceding payment period.

Article 31

Voluntary time-for-time scheme.

1. The employer may, in consultation with the Works Council/employee representative

body or, in the absence thereof, with the individual employees, set a voluntary time-for-time scheme at a lower limit than that referred to in Article 30(1) and (3), but never lower than 160 hours per 4-week payment period. Hours worked on Saturdays can also be included in the voluntary time-for-time scheme.

2. Paragraphs 6, 7, 9 and 11 of Article 30 apply mutatis mutandis.
3. With the exception of Saturday hours, each hour of duty that is accumulated under the voluntary time-for-time scheme between 160 hours and the limit pursuant to Article 30(1) and (3) will entitle the employee to 1.3 hours of free time or 1 hour of free time and an allowance of 30% of the hourly wage. Saturday hours accrued under the voluntary time-for-time scheme entitle the employee to 1.5 hours of free time or 1 hour of free time and an allowance of 50% on the job hourly wage.
4. Time-for-time hours must be accrued before they can be taken. A negative balance of time-for-time hours is therefore not permitted.
5. A maximum number of hours to be accrued must be included in the voluntary time-for-time scheme.
6. The inclusion of time-for-time hours must be announced in advance.
7. The voluntary time-for-time scheme signed by the employer and Works Council/staff representatives or individual employees is laid down in writing and reported to the secretariat of the Collective Agreement parties, PO Box 3008, 2700 KS Zoetermeer, on a one-off basis. If the scheme is terminated or amended, this must also be reported to the secretariat of the Collective Agreement parties. Schemes which have not been signed or notified or which contravene the abovementioned cross-compliance requirements will not be considered to have been agreed.

Chapter X Work on Saturdays, Sundays and public holidays

Article 32

Sundays and public holidays

3. The PKB is allocated at the beginning of the calendar year. The actual accrual takes place per payment period.
4. The value of a day off is 8 times the applicable hourly wage plus holiday allowance and (if applicable) the shift allowance and personal allowance.
5. The employee can make choices per payment period using the balance accrued up to that point. A choice may be made between money, time off or training (both job-oriented and non job-oriented). If time off is chosen, a maximum of 18 days can be purchased.
6. A day off that has already been scheduled and purchased from the PKB will be added back to the PKB balance in the event of illness.
7. If no choices are made, the accrual per payment period continues until the end of the calendar year. The remaining PKB balance, including the purchased but not taken holidays, is paid out in full at the end of the holiday year.

Article 68

ATV days

1. The employee is entitled to 3.5 ATV days (days off under the reduction of working hours scheme) a year.
2. The allocation of the ATV days must be laid down in a written scheme by the employer after consultation with the employee and handed to them at least 3 months before the employee's first day off.
If these days are not scheduled before 1 October of any year at the latest, they will be taken up after that date in the manner set out in Article 67a, Paragraph 7a.
3. The ATV holidays allocated in accordance with paragraph 2 lapse in the event of incapacity for work on the scheduled day(s).

Article 69

Holiday allowance

1. For each calendar year, the employee is entitled to a holiday allowance amounting to 8% of the wages calculated over the fourth payment period of the current calendar year times thirteen, and in case of monthly wage payments, 8% of the salary for the month of April of the current calendar year times twelve. The wage as referred to in this article means the applicable job rate, plus, if applicable, the shift work allowance

and the personal allowance pursuant to Article 23 of this Collective Agreement.

2. The minimum holiday allowance for each calendar year for all employees aged 21 and older and for skilled drivers and crane operators under the age of 21 is at least 104% of the wages applicable in the fourth payment period of the current calendar year, or at least 96% of the wages for the month of April of the current calendar year in the case of monthly payment, belonging to scale D, spine point 1. For young employees within the meaning of Article 20, this minimum will be the percentage appropriate to their age, mentioned in Article 20, of the minimum amount specified in this paragraph.
3. If the employee is employed by the employer for only part of the calendar year, he will be entitled to a proportional share.
4. The holiday allowance must be paid in the month of May for the current calendar year. In consultation between the employee and the employer, monthly payment of the holiday pay may be agreed at company level. Agreement on this with the individual employee must be reached in the previous calendar year.
5. Contrary to the provisions of paragraph 4, the employer may pay the holiday allowance in two instalments, one in May and one in November, to employees who have been in its service for less than one year, or who have been in service for less than 3 years under a temporary contract.
6. If the employee's employment ends before the fourth payment period or before April, the wages most recently earned will — contrary to paragraph 1 — be the basis for calculating the holiday allowance.
7. In the event of long-term occupational disability, the employer is obliged to pay the holiday allowance over a period of 24 months of the occupational disability, subject to the provisions of Article 16 of the Minimum Wage and Minimum Holiday Allowance Act. For the purposes of this article, periods during which the employee was prevented from working due to illness will be added together if they follow each other with an interruption of less than 4 weeks.

Article 69B

Terms of employment as of 1 July 2017

From 1 July 2017, the terms of employment of this Collective Agreement apply to employees working for companies that were previously subject to the Collective Agreement Goederenvervoer Nederland, unless this Collective Agreement expressly states otherwise.

Article 69C

Extra ATV days

Employees who were previously covered by the Collective Agreement Goederenvervoer Nederland and were eligible for 18 extra ATV days (days off under the reduction of working hours scheme) a year on 31 December 2016 will retain the right to these days until they reach the state retirement age.

For the companies previously covered by the collective agreement Goederenvervoer Nederland, a fund will be created for the purpose of this scheme, for which the employer will make a maximum of 0.26% of the wage margin available as from 1 July 2024.

Article 69D

Wage tables for employees working for companies previously covered by the Collective Agreement Goederenvervoer Nederland

For employees working for companies previously covered by the Collective Agreement Goederenvervoer Nederland, a discount of 0.26% will apply to the wage tables as set out in Article 25 of this Collective Agreement from 1 January 2024.

July 2024 will see discussions between the parties as to whether the number of employees entitled to the 18 ATV days still justifies a discount on the wages of the former KNV companies.

No later than December 2024, the new discount for former KNV companies will be calculated and communicated with the social partners. This discount will then be applied to the TLN wage structure as of 1 January 2025.

Please note: if the job grade wage in the tables below falls below the statutory minimum wage, the statutory minimum wage must be used as the job grade wage.

Article 70

Protection of trade union officials

1. The employer must ensure that the position of a trade union representative of a workers organisation at the company is not harmed due to his union work.
2. A trade union representative of a workers organisation is a person working in the company who holds an administrative or representative position for the workers organisation of which he is a member and who has been designated as such in writing to the employer by that organisation.
3. The trade union representatives of the workers organisations are permitted to distribute trade union information via notice boards provided that this information is not damaging to the company or inflammatory.
4. For the termination of an employment contract with a trade union representative of one of the workers organisations, the same dismissal provisions apply as those that apply to a member of the Works Council.

Article 71

Rules of conduct in mergers and reorganisations

1. Without prejudice to the obligations arising from the SER decree on merger rules, an employer who employs at least 50 people is obliged to involve the employer organisations and the workers organisations as soon as possible in the event of mergers, shutdowns, consolidations, takeovers and so on.
2. In the event of a reduction of work at a company, the available working hours must be redistributed between employees in the same or a similar position before redundancy takes place; in that case, redundancy will not take place if the average number of working hours for this group of employees still amounts to more than 45 hours per week.
3. In the event of redundancy in a reorganisation or work reduction involving 5 or more employees, the workers organisations must be involved.
The workers made redundant in this context must subsequently be given priority in filling vacancies with their former employer.

Article 72

Suspension of payments and insolvency

1. An application for suspension of payments must immediately be reported to the workers organisations. The workers organisations are bound to secrecy until the publication of the decision granting suspension of payments.
2. A request for a declaration of bankruptcy will immediately be reported to the workers organisations.

Article 73

Charter provision

1. In subcontracting agreements performed at or through the employer's company established in the Netherlands, the employer is obliged to stipulate to independent entrepreneurs acting as employers that the basic terms of employment of this Collective Agreement are to be granted to their employees when this follows from the Posting of Workers Directive, even if the jurisdiction of a country other than the Netherlands has been elected.
2. The employer is obliged to inform the employees referred to in paragraph 1 of this Article of the basic terms of employment applicable to them.
3. Paragraphs 1 and 2 of this Article are not applicable if the workers referred to in paragraph 1 of this Article fall directly within the scope of this Collective Agreement. This is because they are subject to the full Collective Agreement.

Article 74

4. The request must be submitted in writing to the Collective Agreement parties, stating "Dispensation".
5. As a minimum, the request must include:

 - b. The signature of the applicant
 - c. A precise description of the nature and scope of the dispensation request
 - d. The applicant's arguments for dispensation

The applicant will be given 2 weeks to submit the additional information to the parties to the Collective Agreement.
7. The request will not be processed if the additional information is not (sufficiently) provided. The applicant will be informed of this in writing.
8. Within 2 weeks of receiving a sufficiently described, motivated and documented request or within 2 weeks of receiving the requested additional information, the

Collective Agreement parties will inform the applicant that the request will be taken into consideration.

9. When assessing whether to grant dispensation, parties to the Collective Agreement will use the following as criteria:
 - a) Whether there are (temporary) special circumstances, different from what is usual in the sector, based on which it cannot reasonably be demanded of the applicant that the Collective Agreement (or provisions thereof) be applied in full; and
 - b) Whether there is another arrangement which is at least equivalent to this Collective Agreement (or its provisions) and which has been established in consultation with a workers organisation that is independent of the employer.
10. The Collective Agreement parties will issue a ruling as soon as possible, but no later than 8 weeks after the request was accepted for processing. The Collective Agreement parties may extend this period once by 8 weeks.

ANNEX I

Appeals procedure

- * Employees who are members of trade unions may seek advice from their trade union.
- ** The employer may consult its organisation or request advice from the Sectoral Institute for Transport and Logistics (see paragraph 3 of Article 18 of the Collective Agreement).
- *** BFB: Beroepscommissie Functiewaardering voor het Beroepsgoederenvervoer over de Weg en de verhuur van mobiele kranen (Appeals Committee on Job Classification for the Professional Transport of Goods by Road and Mobile Crane Hire), PO Box 308, 2800 AH Gouda.

ANNEX II

Rules governing the Appeals Committee on Job Classification for the Professional Transport of Goods by Road and Mobile Crane Hire (BFB)

Article 1

The BFB decides in all cases where an appeal has been lodged pursuant to Article 24 of the Collective Agreement for the professional carriage of goods by road.

Article 2

The BFB consists of a chair and two members. Both the employer organisations, which are party to the Collective Agreement, and the workers organisations, which are party to the Collective Agreement, appoint a member and a deputy member of the committee. The members thus appointed jointly propose a chair and a deputy chair to the Collective Agreement parties. The parties to the Collective Agreement appoint the chair and a deputy chair.

The members of the BFB may be replaced by their respective deputies at any time of their choosing. The deputy chair will only act as chair of the BFB if the chair is unable to act as chair themselves.

Article 3

The chair and the members of the BFB and their alternates will serve for a period of 3 years. Persons who have been directly involved in the negotiations for this Collective Agreement cannot be part of the BFB.

The retiring chair or deputy chair and members or deputy members may be reappointed. Any vacancies arising in the interim will be filled as soon as possible.

Article 4

A secretary will be appointed to the BFB to carry out secretarial tasks. The secretary is not a member of the BFB. They are appointed jointly by the employer and workers organisations that are party to the Collective Agreement.

Article 5

The chair and deputy chair, and members and deputy members will cease to be members of the BFB:

- a. on expiry of the term for which they were elected
- b. by resigning in writing
- c. on assuming a position which, on the basis of the provisions of these rules, would also render the person concerned ineligible for appointment.

Article 6

Upon receipt of the notice of appeal, the secretary will notify both the complainant and the respondent of the date on which the BFB will hold a hearing to hear the dispute, no later than 10 days before the date of the hearing.

Article 7

The BFB may decide that, before the BFB takes up the dispute at the meeting, the parties should clarify their position, either in writing or orally, within a period of time to be determined by the BFB.

Article 8

The BFB may seek the advice of experts.

Article 9

The parties, if so requested, will appear at the hearing in person or by proxy, assisted by counsel if desired.

Article 10

If the person concerned does not appear without giving notice, a decision will be made in absentia, unless the BFB wishes to postpone the case.

If the person concerned reports a valid reason for being unable to attend, the case may be postponed at the discretion of the BFB. If a case is postponed, further proceedings will take place within 30 days.

Article 11

The BFB may, if it deems it necessary or desirable, adjourn the meeting until a date to be determined.

Article 12

The BFB is required to give its decision within three months from the date on which the first hearing in the case concerned took place. However, it will be entitled to extend the duration of its mandate if this is justified by special circumstances, to be decided at its discretion. The BFB members decide by a majority of votes and do not report the opinions of the minority. The judgment must state the grounds on which it is based.

The secretary will send each of the parties an authenticated copy of the decision.

150 minutes for a shift of at least 16.5 hours.

ANNEX IV

Dismissal regulations

There are several options for terminating employment contracts under the employment law. Below is a brief and concise overview.

Employee resigns

An employee can terminate their employment contract themselves subject to one month's notice. For example, if the employee gives notice on 15 June, the notice period starts on 1 July and the employment contract ends on 1 August. The employee will preferably give notice in writing (dated and signed) to the employer. If the employee wants to have an urgent reason for leaving employment assessed by the subdistrict court, he can petition the subdistrict court to do so. Notice of termination can only be given by the employee if there is an interim notice clause in the employment contract.

Temporary employment contract ends

If there is a temporary employment contract with a start and end date, the temporary employment contract automatically ends on this end date without requiring notice. However, the employer must give timely notice (no later than one month before the end date) of the employment contract. Of course, the parties can extend the employment contract by mutual agreement. The employer and employee can also agree that the employment contract ends when a "resolutive condition" comes into effect. For example, this may apply in a situation where an employee fails to obtain a certificate of good conduct but needs it to carry out their work. If the employee disagrees with the termination of their temporary employment contract and cannot reach an agreement with the employer, he can submit his objections to the subdistrict court within two months of the end date of the employment contract.

Termination of employment contract by mutual agreement

If the employer and employee agree together that the employment contract will end, this can be put on paper in a settlement agreement. The settlement agreement sets out all the arrangements regarding the end of employment. The employer and employee each have the opportunity to consult legal counsel.

End of employment contract through intervention of UWV

If there are business economic reasons or an employee has been sick for more than 24 months, the employer can ask the Employee Insurance Agency (UWV) for a dismissal permit. Employees are notified by the UWV and given 14 days to submit a defence to the dismissal request. If the UWV does decide positively on the dismissal permit, the employee can submit their objections to the subdistrict court within two months of the end date of the employment contract.

End of employment contract by intervention of cantonal court

An employer can ask the subdistrict court to dissolve the contract. This may be the case, for example, if the employee performs poorly or the working relationship is troubled. The employee is invited by the subdistrict court judge to the hearing where he can defend himself.

Probationary dismissal

During a (valid) probationary period, both the employer and employee may terminate employment without notice. If the employee does not agree with the employer's termination, he can say so. If this does not lead to a different decision by the employer, the employee can submit their objections to the subdistrict court within two months of the end date of the employment contract.

Instant dismissal

If there is an urgent reason, both the employer and employee may terminate the employment immediately (i.e. without notice). The urgent reason must be stated immediately at the time of termination. If the employee disagrees with the instant dismissal, he can submit his objections to the subdistrict court within two months of the end date of his employment.

Termination

Unless another day has been designated by written agreement or by custom, notice of termination must be given by the end of the month.

The period of notice to be observed by the employer is the period of notice for an employment contract commencing on the day of notice being given:

- a. less than five years: one month
- b. five years or more but less than ten years: two months
- c. 10 years or more but less than 15 years: three months
- d. fifteen years or more: four months

If a redundancy permit is granted, the notice period will be shortened in accordance with the regulations laid down in the Dutch Civil Code, on the understanding that the remaining notice period will be at least one month.

ANNEX V

PROTOCOL ON INCAPACITY FOR WORK

The parties agree that:

The "Arbeidsgeschiktheid geregeld" report by Mercer/RCW serves a good basis for having Gezond Transport* function optimally in terms of prevention and rehabilitation. The Collective Agreement parties have instructed the management of Gezond Transport* to elaborate the report as far as possible and to consider how to make recommendations to consultation partners within companies not affiliated to Gezond Transport*.

The parties hereby agree to the following flanking measure:

If employment in a suitable position (internal or external) requires retraining, the employer will draw up a retraining plan in consultation with the employee and Gezond Transport* or another rehabilitation company. Any training will as far as possible take place during working hours and at the employer's expense. SOOB will subsidise courses that have a positive assessment from Gezond Transport*.

The parties further agree as follows:

Obligations of the sector

The parties mandate the management of Gezond Transport* to develop incentive measures that will lead to the rehabilitation of people who are partially incapable of work in suitable positions in the sector, whereby the development of a digital job vacancy bank will be expressly looked into.

Employers give preference to people partially incapable of work in job vacancies in case of equal suitability.

Employer's obligations

- During the rehabilitation process, the employer is obliged to make an effort to reinstate the employee concerned (taking into account their limitations) in their own position, even if this requires technical adjustments to the workplace or a change in the organisation (a different division of tasks). Maximum use will be made of the options afforded by the law in this process.
- If re-employment in the employee's own job is not possible, the employer must make every effort to re-employ the employee in another job within the company.
- If the employer can make a plausible case, e.g. by explaining why no other jobs can be considered for the employee concerned or whether a suitable job can be created by a different grouping of tasks and/or adjustment of the work environment and/or the usual performance standards, the action plan will be aimed at finding suitable work outside the employer's company, preferably within the sector.

Employee's obligations

- In the event of absence due to illness, the employee is obliged to actively cooperate in efforts aimed at internal or external rehabilitation.

Offering suitable work

- If, within the framework of the rehabilitation of the sick employee (who is incapable of work), an offer of suitable work is made, the employer will in the first instance endeavour to make an offer of suitable internal work, taking the employee's training and experience into account, among other things.
- If it is not possible to offer suitable work internally, the employer will preferably make an offer of suitable external work within the sector. If this is not possible either, an offer of suitable external work outside the sector must be made.
- The employer is obliged to make an offer of suitable work, both for an internal and external position, or have it made in writing and, if the employee so desires, to have it accompanied by the opinion of Gezond Transport*, another rehabilitation company or certified doctor.
- The offer also states the statutory right of the employee to request a second opinion from the Employee Insurance Agency (UWV) or an independent company doctor. The employee must request the second opinion within 10 days, unless the employee can demonstrate that he needs more time.
- During the period in which no decision has been taken on the request for a second opinion, the wages will continue to be paid in full for a maximum of 2 weeks. If the ruling is in favour of the employee, wages will continue to be paid for the entire period. The costs of requesting the second opinion will be borne by the party ruled against.
- The employer will explicitly inform the employee of the employment and benefits implications of accepting or not accepting a suitable job.
- The employee may seek the assistance of a confidential advisor if the employer offers him suitable internal or external work.

Legal position of the employee

Implications of internal redeployment

Successful internal rehabilitation means that the employee has returned to work with their own employer and has worked there for six months, either in his old job or in an adapted or new job.

Implications of external placement within or outside the sector

External rehabilitation is deemed successful when the employee has returned to work with an external employer and has worked there for six months.

If secondment is of a temporary nature because a return to work with the employee's own employer is possible in the long term, the option of resuming work with the employee's own employer must be discussed on a regular basis within the framework of the action plan.

Income on delay of claim under the Work and Income (Capacity for Work) Act (WIA) or WIA benefit

If, after the second year of illness, benefits under the Return-to-Work Scheme for Partially Disabled Persons (WGA) do not start or start later due to a sanction imposed by the Employee Insurance Agency (UWV) on the employer, the wage payment and the supplement to the wage payment will be continued for a maximum period 12 months. The above arrangement also applies if the employer and employee mutually decide to postpone the application for WGA benefits. Payment of wages is understood to mean the income that is also received during the second year of illness.

In that case, the employer will in all cases announce 28 days in advance which days off are scheduled and which shifts will be worked. Contribution

1. The employer owes an annual contribution per calendar year for the benefit of the Foundation on their gross wage bill for social insurance in the current year, on the understanding that the tax base per employee is no more than the maximum daily wage on which the contribution is due applicable for that year reduced to an annual amount pursuant to the Social Insurance Financing Act (Wfsv).
The employer owes an annual contribution of 0.86% of the aforementioned wages. The above amount on which the contribution is due will be recalculated to an amount per month.
2. The employer is obliged, at the written request of the Foundation, to provide a statement of the wages on which the contribution is due referred to under paragraph 1 in a manner to be determined within 30 days of the date of this request.

3. In the event of non-fulfilment of the request referred to under paragraph 2, the contribution due will be fixed at a flat rate.
4. The employer owes the fund the full contribution for the employee in service. Part of the contribution, amounting to 0.245% of the wages on which the contribution is due, is borne by the employee, who owes his share of the contribution to the employer. The employer is obliged to deduct from the wage payments the share of the contribution that the employee owes to his employer with regard to the period to which the wage payment relates.
5. The employer is obliged to pay the contribution it owes to the fund within 28 days of its confirmation and dispatch of the relevant invoice by the fund.
6. In the event of late payment of the contribution due, the employer is in default due to the mere expiry of the term.
The fund is then authorised to claim:
 - interest on the amount due on the day that the amount due should have been paid and
 - reimbursement of the extrajudicial collection costs, without prejudice to the other costs of prosecution due under the law.

The interest is calculated according to the percentage of the statutory interest as referred to in Book 6, Articles 119 and 120 of the Dutch Civil Code that applies to the period for which the interest is claimed by the fund. The extrajudicial collection costs are set at 15% of the amount due, with a minimum of €50 and a maximum limit of €5,500.
7. The legal claim for repayment of any unduly paid contribution lapses three years after the end of the financial year in relation to which the contribution was paid.

1. Any employee who wishes to be eligible for benefits under this scheme must submit a request to the Foundation to that effect to assess whether the criteria for participation in the scheme are met, at most six months and at least one month before their exit date. For employees who wish to make use of the scheme before 1 June 2022, a shorter application period applies.
2. The application must be submitted using the application form provided for this purpose, which must be completed accurately and in full and signed by the employee. The employee must also enclose a letter from Pensioenfonds Vervoer and a statement from the employee that he is in a physically demanding job.

Article 6 – Decision on whether the conditions have been met

1. Within two weeks of receipt of the request, the Foundation will decide whether the conditions for participation in the scheme have been met (conditional award). The decision will be communicated to the employee in writing by issuing a statement confirming the conditions for participation have been met. If, in the opinion of the Foundation, the conditions for participation have not been met, this will be communicated to the employee in writing. If it is not possible to make a decision within two weeks due to certain circumstances, the employee will be informed of this in writing, including the reason for the postponement, as well as the period within which the decision will be made.
2. Any employee who does not agree with a decision of the Foundation may submit an objection to this effect to the board of the Foundation. See the dispute settlement procedure in Article 13 for more.
3. A conditional award means that the application for benefits is granted and will be converted into a final award following receipt of the application for participation in the scheme at the Foundation, as described in Article 7.
4. The Foundation determines whether the conditional award can be converted into a final award on the basis of the Foundation's financial situation.
5. Applications are processed by the Foundation in order of receipt.
6. Only complete applications will be processed by the Foundation.
7. Incomplete applications must be resubmitted. After completion of any incomplete application, the date of receipt of the complete application will be taken as the date of submission.

Article 7 – Decision on final award of benefits and submission of application by employee

1. Within four and a half months of the date of the Foundation's confirmation that the conditions for participation in the scheme have been met, but no later than one month before the exit date, the employee must submit an application for participation in the scheme by completing the request by sending the following documents to the early retirement foundation:
 - a. a copy of a payslip showing the employee's position; and
 - b. if the payslip does not contain information about the employee's position, a copy of the employment contract showing the employee's position; and
 - c. if the employment contract does not contain information about the employee's position, a statement signed by the employer that the employee has been employed by the employer in a physically demanding job for at least one year immediately prior to the exit date; and
 - d. a statement confirming that the employment contract has been terminated in a timely and legally valid manner by unilateral termination at the request of the employee.
2. The Foundation will confirm the final award of benefit in writing (final award) within two weeks of receipt of the application as referred to in paragraph 1. If a decision cannot be

made within this period, the Foundation will notify the applicant in writing, stating a reasonable period within which a decision can be made. This period will be no later than the exit date.

3. An employee who wishes to be eligible for the benefit confirms their agreement to the rights and obligations applicable to them arising from this scheme.
4. The beneficiary must provide information to the Foundation without delay and on his own initiative regarding their acceptance of any employment and/or work as a self-employed person and/or application for replacement benefit under the Unemployment Act (WW) before, on or after the retirement date. The Foundation will periodically test this.
5. During the term of the benefits, the beneficiary is obliged, in addition to the provisions of paragraph 4, to provide on his own initiative or at the first request of the Foundation all information that can reasonably be understood to affect the continued existence of their entitlement to the benefits and the amount and the duration of the benefits.

Article 8 – Financial situation of the Foundation

1. For applicants who apply after it has been determined on the basis of the evaluation that the financial resources of the Foundation are insufficient, the condition for new applications referred to in Article 2, paragraph 1, point d is that they have worked for an employer in the sector for at least 25 years.
2. If the provisions of paragraph 1 are not sufficient, the Foundation may decide to reduce the maximum duration of the benefit downward from 36 months for new applications.
3. For applicants who make an application after it has been determined on the basis of the evaluation that the financial resources of the Foundation are sufficient, the Board will decide on the further disbursement of its funds, for example by reducing the number of years of service required to use the scheme or otherwise widening the target group.

Article 9 - Revocation and amendment of a decision to award

1. If the beneficiary or his survivors do not provide the information requested under this scheme or to be provided on his own initiative in a timely, complete and correct manner, any decision on future payment, or on currently ongoing payments, may be revoked and discontinued. Beneficiaries or their survivors are deemed not to have provided the information referred to in this paragraph, or not provided it in a timely manner, if the Foundation has not received the information within two months of receipt of its first request to do so, or immediately after the fact that the information must be reported at their own initiative is known to the beneficiary or his survivors.
2. The Foundation is entitled to reclaim the (in)direct damage incurred by the Foundation from the beneficiary or his survivors as a result of any failure by the beneficiary or his survivors to provide complete and timely information or the beneficiary or his survivors otherwise not meeting the conditions set out in this scheme, whether or not in the form of overpaid benefits, social security charges and interest. In addition, the Foundation reserves the right to seek redress by reducing the current benefit.
3. In the event of any fraud, forgery or other crime as defined by the Dutch Criminal Code, the Foundation may report this. This does not affect its option to recover any damage,

whether or not in the form of undue payments, from the persons concerned in civil proceedings or otherwise.

4. The previous paragraphs do not apply if the beneficiary or his surviving relatives cannot reasonably be blamed for the conduct referred to in this Article, excluding any claim of ignorance of the content of these regulations.
5. The Foundation will notify the beneficiary or his survivors of its decision to take measures as referred to in this Article in writing, stating in any case why this measure is being imposed and what the amount and duration of the measure is.

Article 10 - Recovery of unduly paid benefits

1. If any benefit is paid without being due, whether in full or in part, that benefit or that part of the benefit may be recovered from the person(s) to whom it has been paid. In the event of undue payment of any benefits, the gross amount of the benefits will be reclaimed from the beneficiary or his survivors. As far as possible, this recovery will be set off against any payments yet to be made.
2. The beneficiary or his survivors will receive a decision stating the reasons for the undue payment, as well as the period within which he or his survivors must repay the unduly paid amount, being two weeks if full or partial settlement within that period is not possible.
3. If the person to whom undue payment has been made or his survivors are unable to repay the outstanding amount within two weeks, he or his survivors may request a payment plan in writing. He or his survivors must submit this request, including their justification, to the Foundation within two weeks of the date of the decision referred to in paragraph 2. The Foundation will take a decision on the request within two weeks.
4. If the Foundation does not agree to a request for a payment plan, the Foundation will notify the person to whom the undue payment has been made in writing. At the same time, the person to whom the undue payment has been made will be asked to repay the undue payment within two weeks.
5. If the person to whom the undue payment has been made does not meet the repayment obligation on time, or — in the event of a payment plan — does not pay his instalments on time, the Foundation will send the person to whom the undue payment has been made a one-off (digital) reminder stating that payment must be received within 14 days.
6. If the person to whom the undue payment has been made does not pay within that period or misses an instalment a second time, the entire claim will be handed over to a collection agency without further notice. The costs relating to the extrajudicial collection will be borne by the person to whom the undue payment has been made, in accordance with the legal maximum permitted compensation as set out in the Decree on compensation for extrajudicial collection costs or any regulations that apply in place of this Decree.
7. No recovery will take place after the expiry of a period of five years after the date on which the Foundation has determined that the benefit has been paid unduly.
8. If it has compelling reasons to do so, the Foundation may waive recovery in full or in part.

Article 11 – Further provisions

The Board is authorised to adopt further provisions that are necessary for the responsible implementation of the early retirement scheme.

Article 12 - Hardship clause

If, in the opinion of the Board, the implementation of this scheme would lead to a situation in any individual case that is clearly unfair, the Board may decide to deviate from the scheme in favour of the employee concerned.

In such cases not provided for in the regulations, the Board will act in the spirit of the regulations (although any decision on its part will not create a precedent for other situations).

Article 13 – Dispute settlement

1. Any beneficiary who does not agree with a decision that concerns him may contact the Board in writing with the request to revisit to a decision on the basis of these regulations.
2. Upon request, the beneficiary will be notified in writing of any decision of the Board on the basis of these regulations that concerns him.
3. Any notice as referred to in paragraph 2 will be dated and will state the grounds on which the decision is based.

Article 14 – Goodwill committee

In borderline cases, a goodwill committee will assess whether an employee concerned may participate in the scheme (although any decision on its part will not set a precedent for other situations).

Article 15 – No cumulation

An employee who makes use of this scheme cannot make a claim under any other (statutory) scheme and/or cannot claim compensation under their employment contract (or following the termination thereof), collective agreement, company scheme, pension scheme and/or otherwise.
